JAPAN NOW CONTROLSSEA

Have Begun to Resume Traffic With Korea and China.

STAND LONG

Christians Form Association to Help the Destitute People. A Missionary's Letter.

in a letter to the Baptist foreign mission headquarters here, the Rev. E. N. Walne, at Nagasaki, Japan, gives a valuable insight into the Eastern war situa tion and describes the disturbed conditions prevailing in the little island empire. The missionary thinks it mistake that Japan will not be able to stand the strain of a long war, and predicts continued success for the yellow

men. Mr. Walne says in part:
"We all rejoice in the brilliant success which Japan has thus far achieved in the war with Russia. She has won complete control of the sea, and the native steamship companies are resuming traffic with the Korean and China ports as fast as foreign steamers can be chartored to take the places of the vessels which the government has taken for transport service. In view of the notorious bruiality of the Russians, we all feel relieved to knew that her navy has been practically eliminated from the struggle, so that the war will be confined to Manchuria and Korea. With the exception of the movement of troops, everything is very quiet here. The nation is holding itself well in hand. There have been no extravagant patriotic demonstrations. Everything is moving on in a business-like way and apparently without a hitch of any kind. If the Russians are as poorly prepared on hand as they were on the sea, the war will not last long. The Japanese will not give them time to transport troops by the Siberian Railroad, As soon as the winter weather is ever they will probably strike the Russians in several different places, cutting communications with both Port Arthur and Vladivostok. There seems to be an impression abroad that Japan will not be able to stand the financial druin of a long war. I am sure that this is a mistake. While the per capita wealth of the country is small, there is no public officer in the empire, from the highest to the lowest, subscribed a certain per cent, of his salary to the war fund. The old wealthy families have opened their treasure houses and forwarded the contents to the Bank of Japan, to be held as collateral. Millons have been raised in this way. Last week hids for the first issue of war bonds were invited and the amount required—100,000,000 yenwas subscribed within four days. The burden will fall heaviest upon the families of the soldiers, who have gone to the front. Many of these families were entirely dependent for support upon the faily earnings of the men whe have joined the colors. The Christians of Nagasaki, there is no public ormed an association to help these people. My Japanese colleague is chairman of the visiting committee, The committee has secured from the authorities the names and addresses of the Lico men wh
